

AL BARAKA
DIYAR PROJECT SUPPORT FZE LLC

COMPANY PROFILE · 2026

Industrial site support, delivered with zero harm.

Equipment rental · Heavy and general transport · Material trading · Technical support · Porta cabins · Safety products

Al Baraka Diyar

UAE · India · Saudi Arabia | Since 2011 | albarakaservices.com

WHO WE ARE

High-trust site support, since 2011.

Al Baraka Diyar is a UAE-based industrial solutions provider offering comprehensive site support for construction sites, solar power plants and large-scale industrial operations.

With a strong presence across the UAE, India and KSA, we specialise in manpower, equipment rental, transport and material trading, delivered with a strict Zero Harm policy.

OUR FOUNDATIONS

Our vision

To become one of the most trusted site support partners in the Middle East industrial sector through consistent delivery of quality and reliability.

Our mission

To empower GCC industrial expansion by delivering high-trust site support solutions that prioritise safety, efficiency and sustainability.

Core values

Integrity, precision and partnership. We build long-term corporate relationships through transparent performance and measurable excellence.

A UAE-registered, GCC-operational partner.

Head office in Ajman, branch in Dubai, active operations in India and Saudi Arabia.

WHAT WE DO

Complete site support ecosystem.

Equipment rental

Monthly rental of mobile cranes from 50 ton, telehandlers, forklifts, man lifts, JCBs, wheel loaders, excavators, trailers, buses and pickups.

Heavy & general transport

Multi-axle low beds, port-to-site haulage, cross-emirate logistics, pickups, staff buses and delivery vans.

Material trading

Structural steel, building materials, electrical and safety equipment, plumbing and MEP supplies, tools and consumables.

Technical support

Licensed crane operators, certified welders, foremen, electricians, HSE officers and skilled labour, mobilised end to end.

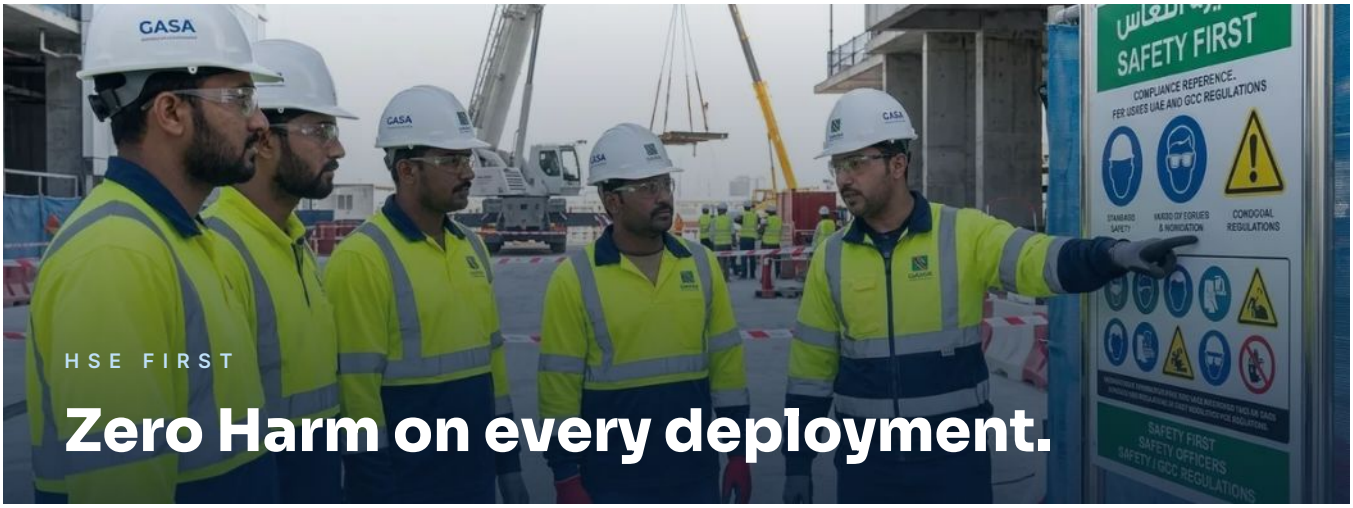

Porta cabins & containers

Custom containers built to your drawing: offices, toilets, mosques, labour accommodation, canteens and guard cabins.

Safety products

50 PPE and site-safety product lines, regular-use and premium & specialised, supplied in site quantities with certificates.

HSE FIRST

Zero Harm on every deployment.

Health, Safety and Environment are at the core of every operation. We maintain a strict Zero Harm policy across all site deployments and fleet operations, in line with UAE and GCC regulations.

- Site HSE plans and risk assessments
- Toolbox talks and dedicated safety officers
- Certified operators and inspected equipment
- Full site HSE management
- 24/7 emergency response lines

HOW WE WORK

A four-step delivery process.

01

Requirement assessment

We study your site, scope, loads and timeline with your site team.

02

Strategic proposal

A clear, itemised proposal with equipment, manpower and logistics options.

03

Mobilisation

Fast deployment of machinery, crews and cabins to site, fully documented.

04

Ongoing support

Dedicated coordination, HSE supervision and 24/7 response throughout.

OUR FLEET

OUR WORK

500+ sites in three markets.

2GW Solar Power Plant Deployment

45+ heavy machinery units including cranes, excavators and loaders.

Dubai Metro Extension Phase 3

200+ skilled manpower and portable cabin infrastructure for a 15 km extension.

India Industrial Zone Logistics

Heavy haulage and cross-border transport for 80+ oversized components.

KSA Refinery Expansion

350+ certified technicians, welders and safety officers deployed.

Abu Dhabi Airport Expansion

Specialised earthmoving fleet and aerial work platforms for terminal works.

Musaffah Industrial City

Portable cabins, equipment and a 150+ workforce for the expansion.
