HAND PROTECTION · REGULAR-USE PPE

Nitrile & PU Coated Work Gloves

Nitrile and PU coated work gloves are seamless knit gloves with a polymer coating on the palm and fingers that gives grip, abrasion resistance and dexterity for general handling work.

TECHNICAL SPECIFICATIONS	
Standard	EN 388:2016+A1:2018 (typical 4121X nitrile foam, 4131X PU); EN 420 / EN ISO 21420
Liner	13g or 15g nylon, polyester or nylon-spandex
Coating	Nitrile foam, sandy nitrile, smooth nitrile or polyurethane
Coverage	Palm-coated, half-dip (knuckle) or full-dip
Sizes	7 (S) to 11 (XXL)
Colour	Grey/black, black/black, orange hi-vis, white/grey
Packaging	12 pairs per bag, 120 or 144 pairs per carton
Touchscreen	Available on selected PU and foam nitrile grades

Key features

- Seamless 13- or 15-gauge nylon or polyester knit liner for comfort and dexterity
- Nitrile foam coating gives grip on oily and damp surfaces
- PU coating offers fine tactile feel for assembly and electrical work
- Breathable knit back reduces hand sweating in high ambient temperatures
- Elasticated knit wrist keeps the glove in place and excludes dust
- EN 388 abrasion level 3 or 4 and tear level 2 on most grades

Variants available

- Nitrile foam palm-coated gloves
- Sandy nitrile oil-grip gloves
- PU palm-coated precision gloves
- Fully dipped nitrile gloves for wet work
- Hi-vis orange coated gloves
- Winter-lined nitrile gloves for cold stores

TYPICAL APPLICATIONS	
Construction	rebar handling, block work, scaffolding and general site labour
Logistics	warehouse picking, pallet handling and parcel sorting
Oil & gas	light maintenance, valve handling and tool work where oil is present
Solar	panel unloading, racking assembly and cable pulling
Industrial	machine operation, assembly lines and fabrication shops
Facilities	landscaping, cleaning and building maintenance

COMPLIANCE, BRANDS AND SELECTION

Compliance (UAE / GCC)

UAE sites typically require every hand-protection glove to carry a CE mark with the EN 388 pictogram and performance levels printed on the back. Dubai Municipality and Abu Dhabi OSHAD codes of practice place the duty on the employer to select gloves against a documented risk assessment, and client HSE teams commonly request the Declaration of Conformity and EN 388 test report from the supplier before gloves are approved for issue.

Brands we supply

Ansell, Honeywell, Showa, Uvex, Towa, Portwest

How to choose

1. Pick nitrile foam for oily or damp grip and PU for dry, precise handling.
2. Check the EN 388 abrasion level: 4 for heavy daily use, 3 for light duty.
3. Order a size range of 8 to 10 as the bulk of a GCC workforce falls there.
4. Choose breathable palm-only coating for summer and full-dip only for wet work.

Request a quotation

Send quantity, sizes and delivery location. We reply with an itemised quotation and certificates within one working day.
