FIRST AID, FIRE & SITE SAFETY · REGULAR-USE PPE

Fire Extinguishers & Fire Blankets

Fire extinguishers and fire blankets are portable first-response firefighting equipment used to put out or smother small fires before they spread, with extinguishers rated by the classes of fire they can tackle.

TECHNICAL SPECIFICATIONS	
Extinguisher standards	EN 3-7 (portable extinguishers); UAE Fire & Life Safety Code; NFPA 10 practice
Fire blanket standard	EN 1869 (fire blankets)
Agents	ABC dry powder, CO2, AFFF foam, water, wet chemical
Typical ratings	6 kg ABC: 21A 113B C; 5 kg CO2: 55B; 9 L foam: 13A 183B
Cylinder	Deep-drawn steel, red epoxy coated; CO2 aluminium or steel
Working pressure	14 to 16 bar stored pressure (powder/foam/water)
Fire blanket sizes	1.0 x 1.0 m, 1.2 x 1.2 m, 1.8 x 1.8 m
Approvals	UAE Civil Defence listed, CE marked; LPCB or UL on selected brands
Packaging	Individually boxed with bracket; blankets in PVC quick-release pouch

Key features

- ABC dry powder (1, 2, 4, 6, 9 and 12 kg) for general site and vehicle use
- CO2 (2 and 5 kg) for electrical panels, server rooms and generators
- AFFF foam and water types for offices, stores and labour accommodation
- Wet chemical (6 L) for kitchen cooking-oil fires
- EN 1869 fire blankets in 1.2 x 1.2 m and 1.8 x 1.8 m sizes
- Pressure gauge, service label, wall bracket and ID sign supplied

Variants available

- 6 kg ABC dry powder extinguisher
- 9 kg ABC dry powder extinguisher
- 5 kg CO2 extinguisher with horn
- 9 L AFFF foam extinguisher
- 6 L wet chemical kitchen extinguisher
- Fire blanket 1.2 x 1.2 m in red pouch

TYPICAL APPLICATIONS	
Construction	site offices, stores, welding bays and fuel storage
Oil and gas	hot-work permits, generators and pump houses
Logistics	warehouses, forklift charging and truck cabs
Facilities and hospitality	kitchens, plant rooms and corridors
Labour accommodation	kitchens, corridors and laundry rooms
Solar and utilities	inverter stations and switchgear rooms

COMPLIANCE, BRANDS AND SELECTION

Compliance (UAE / GCC)

In the UAE, extinguishers must comply with the UAE Fire and Life Safety Code of Practice and be from products listed with Civil Defence; Dubai Civil Defence, Abu Dhabi Civil Defence and Sharjah Civil Defence inspect labour camps, commercial premises and construction sites for correct type, quantity and travel distance, which is typically a maximum of 15 to 23 m depending on hazard. Hot-work permits under ADNOC, Saudi Aramco and most UAE main contractors require a charged extinguisher and often a fire blanket at the work point.

Brands we supply

Naffco, SFFECO, Firex, Bavaria, Amerex, Jewel Saffire

How to choose

1. Use ABC powder for general outdoor and vehicle cover; keep CO2 for electrical rooms
2. Place foam or water in offices and accommodation where powder residue is a problem
3. Specify wet chemical and a fire blanket for every kitchen and canteen
4. Count hot-work locations, generators and fuel stores when calculating site quantities
