FIRST AID, FIRE & SITE SAFETY · REGULAR-USE PPE

First Aid Kits & Eyewash Stations

First aid kits and eyewash stations are site emergency supplies that provide immediate treatment for minor injuries and rapid flushing of eyes exposed to dust, chemicals or debris before medical help arrives.

TECHNICAL SPECIFICATIONS	
First aid kit standards	BS 8599-1 (UK workplace kits); ANSI/ISEA Z308.1 (Class A/B)
Eyewash standard	ANSI/ISEA Z358.1 (15-minute flush, 0.4 gpm for eyewash)
Eyewash solution	Sterile 0.9% sodium chloride; 2 to 3 year shelf life sealed
Kit sizes	1–10, 11–25, 26–50 and 51–100 persons
Box material	ABS plastic, powder-coated steel, or nylon soft case
Eyewash formats	500 ml bottle, 1 L bottle, double-bottle wall station, 60 L gravity-fed, plumbed
Mounting	Wall bracket included; stations free-standing or wall-fixed
Colours	Green box with white cross; eyewash station green
Packaging	Individually boxed; refills per kit size

Key features

- Wall-mountable ABS or metal boxes with seal tabs and contents list inside the lid
- Contents follow BS 8599-1 or ANSI/ISEA Z308.1 workplace kit schedules
- Sterile saline eyewash in 500 ml and 1 litre sealed bottles with eye cups
- Gravity-fed 16-gallon (60 L) stations give 15 minutes of flushing where no plumbing exists
- Refill packs for each kit size to keep stock in date
- Vehicle, site office and labour camp kit configurations

Variants available

- 10-person first aid kit (site vehicle or small team)
- 25-person and 50-person workplace first aid kits
- 100-person metal cabinet first aid kit
- Double-bottle wall-mounted eyewash station
- Gravity-fed portable eyewash station (60 L)
- Burns kit and bodily fluid spill kit add-ons

TYPICAL APPLICATIONS	
Construction	site offices, welfare blocks and each working level of a tower
Oil and gas	chemical dosing areas, laboratories and battery rooms
Industrial	workshops, blasting and painting shops with eye hazards
Logistics	warehouses and forklift charging areas
Labour accommodation	camp clinics and first aid rooms
Solar	remote desert sites without plumbed water

COMPLIANCE, BRANDS AND SELECTION

Compliance (UAE / GCC)

UAE labour regulations and Dubai Municipality Code of Construction Safety Practice require employers to provide first aid boxes in proportion to the number of workers, with trained first aiders on site; Dubai Health Authority and Abu Dhabi OSHAD guidance follow the same principle. Dubai Civil Defence and municipality inspectors commonly check that kits are stocked, in date and visibly signed. ADNOC and Saudi Aramco contracts typically require kits at every work area plus eyewash wherever corrosives or dust hazards exist.

Brands we supply

Reliance Medical, Honeywell, Haws, Plum, Cederroth, Vaultex

How to choose

1. Size kits to the headcount per location, not the whole site, so each work area is covered
2. Choose gravity-fed stations where no potable plumbed water is available within 10 seconds
3. Add burns and eye modules for welding, hot work and chemical areas
4. Set up a refill schedule so dressings and saline stay in date in Gulf heat

Request a quotation

Send quantity, sizes and delivery location. We reply with an itemised quotation and certificates within one working day.
