FIRST AID, FIRE & SITE SAFETY · REGULAR-USE PPE

Safety Signage, Barrier Tape & Cones

Safety signage, barrier tape and cones are visual control products that warn people of hazards, mark exclusion zones and direct vehicle and pedestrian traffic on construction and industrial sites.

TECHNICAL SPECIFICATIONS	
Sign standards	ISO 7010 (graphical symbols); ISO 3864 (colours and layout)
Sign materials	3 mm PVC foam, 3 mm aluminium composite, self-adhesive vinyl, photoluminescent
Sign sizes	150 x 200 mm to 1,200 x 900 mm boards
Cone heights	450 mm, 750 mm, 1,000 mm; 2.0 to 4.5 kg with rubber base
Cone reflectivity	Single or double reflective sleeve, typically EN 13422 grade
Barrier tape	70 mm x 100 m, 200 m and 500 m rolls; 50 micron polyethylene
Languages	English and Arabic standard; Hindi, Urdu, Bengali on request
Packaging	Signs per piece or packs of 10; cones per 10; tape per 12 rolls

Key features

- ISO 7010 pictogram signs in English and Arabic on PVC, aluminium composite or vinyl
- Site entrance mandatory PPE boards with custom company logo
- PVC traffic cones 450 mm, 750 mm and 1,000 mm with reflective collars
- Red/white and yellow/black polyethylene barrier tape, 70 mm x 100–500 m
- Expandable plastic barriers, chain stanchions and A-frame floor stands
- UV-stabilised inks and materials suited to Gulf sun exposure

Variants available

- Mandatory PPE site entrance board (custom)
- ISO 7010 warning, prohibition and emergency signs
- 750 mm reflective traffic cone
- Barrier tape red/white and yellow/black
- Expandable safety barrier and cone bars
- Photoluminescent fire exit signs

TYPICAL APPLICATIONS	
Construction	site entrances, excavations, lifting zones and scaffold access
Roads and infrastructure	lane closures, diversions and temporary works
Oil and gas	permit-to-work zones, confined space entry points and H2S areas
Logistics	forklift routes, loading bays and pedestrian segregation
Facilities	wet floor, maintenance in progress and fire exit signage
Solar and utilities	substation warnings and electrical hazard signs

COMPLIANCE, BRANDS AND SELECTION

Compliance (UAE / GCC)

UAE Dubai Municipality Code of Construction Safety Practice and Abu Dhabi OSHAD guidance require sites to display hazard and mandatory PPE signage in languages understood by the workforce, with Arabic and English as a minimum. Dubai Civil Defence requires photoluminescent exit signs in buildings and accommodation. Roads and Transport Authority and Abu Dhabi municipalities set temporary traffic management rules for cones, barriers and tape on public roads, typically requiring reflective cones of 750 mm or more.

Brands we supply

Brady, Signs & Labels, JSP, Vaultex, Taha Safety, 3M reflective

How to choose

1. Choose aluminium composite for long-term external signs and PVC for temporary boards
2. Choose 750 mm reflective cones for vehicle areas and 450 mm cones for indoor or pedestrian zones
3. Order barrier tape in bulk 500 m rolls for excavation and lifting exclusion zones
4. Include the main workforce languages on mandatory PPE boards to pass client audits
